INTRODUCTION

MIRJAN

I am a filmmaker, director, editor and cinematographer based in Corfu, Greece. Born in Albania and raised in Corfu, I work with stories, images and the people behind them.

YOUR STORY, FIRST

For a wedding, the starting point is your relationship: the familiar faces, the small gestures and the details that make the day yours. The aim is a film that brings you close to the feeling of being there.

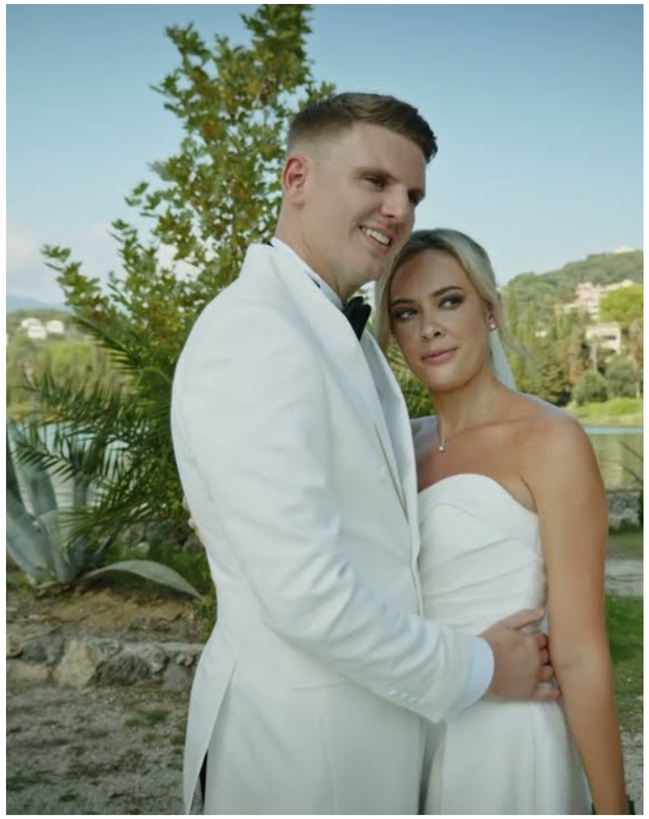

Cinematic images and a considered edit serve that story. The film should have a character of its own, just as the people in it do.
